Kaufman, Texas 75142

*Dear friends,*

*The 2006 breeding season was a great success and we "thank" each of you for choosing Lena Shine as your stallion. We do not take it lightly, the trust you placed in us and please know we will always work extra hard to meet and exceed your expectations.*

*Lena Shine took a little break after the 2006 breeding season and recently has been put back in training. He is proving to be athletically strong in heading, heeling and cutting. It is no surprise considering his bloodlines...right! It has been really exciting watching him train. He loves the change and the challenge; watch the website for future pictures of him working. After the 2007 season, he will be competing the remainder of the year.*

*We are proud to introduce the new kid on the block. He is **Lenas Playboy Pepto**, a 2005 red roan stallion. His sire is the great Peptoboonsmal and dam, Lenas Playboy Bunny, a NCHA money earner of \$102, 247. out of Freckles Playboy. What a combination!! In January he will start training and will be ready to stand for the 2008 season. He is outstanding in size and color, if you're in the area stop by, you won't be disappointed. We are expecting great things from "Hugh".*

*On the home front, we took notes from last year and have made some changes to make things better and bigger. One of our improvements is in finishing a twenty stall barn right off the road, complete with a drive thru. When finished it will house wash stations, vet stall, breeding system, sonograms, lighting and video monitoring. We are most excited about our embryo transfer program at Kings Creek.*

*We are actively searching to purchase our third stallion, he will be an own son of High Brow Cat and an own daughter of Smart Little Lena. Purchasing this stallion will bring three of the greatest producing bloodlines to Kings Creek. Our desire is to offer you the very best bloodlines, at an affordable price. One of the greatest things about working with horses is meeting others who share our excitement of growing in the horse industry.*

*Enclosed you will find your breeder's certificate(s) and a new flyer. We look forward to hearing from you when the babies hit the ground. Have a blessed New Year!*

*Sincerely,*

**Kings Creek Ranch**
